Chamber Chatter

By IRENE GROVE

There are so many activities on the calendar for your city in the coming weeks, we scarcely know where to begin.

First let us take time to make a special salute to the Junior Chamber of Commerce and particularly to our own grand young fellows in the Albany Junior Chamber of Commerce. The week of January 18 through January 24 has been designated as National Jaycee Week. This week celebrates the founding of the junior chamber in 1915 in St. Louis, first called the Young Men's Progressive Civic Association, later renamed Junior Citizens, starting the abbreviation "J.C." In 1918 the St. Louis Chamber of Commerce invited the Junior Citizens to become affiliated as the Junior Chamber of Commerce.

The affiliation was so popular that the St. Louis Plan soon spread to many other cities and the next year the U.S. Junior Chamber of Commerce was formed with 24 cities represented. Today there are more than 3,500 chapters with nearly a quarter million members and it has reached to 84 nations and territories.

Everyone of us in Albany knows of the many worthwhile projects that our Albany Jaycees have sponsored and their part in making Albany a better place to live and do business. All the best to the Albany Junior Chamber of Commerce during your special week and throughout the year. Your Chamber of Commerce officers for 1959 met Thursday to discuss plans for the year. Committees are being organized so that each of you will have the opportunity to participate on the committee of your choice to insure the progress of your city in the coming year.

SOME REALLY BIG NEWS! ANNUAL MEMBERSHIP DINNER. Tentative date has been set for Thursday, February 19 at Spenger's. The occasion is the joint membership dinner and installation of officers for your Albany Chamber of Commerce and by special invitation, The Solano Avenue Merchants Association. A really big time for all is planned with a lot of surprises. Everyone is invited and urged to attend... more details later.

Thanks go to the San Pablo Avenue merchants who have been so cooperative in their contributions for the Christmas street decorations. A very special vote of thanks should go to Tom Gabriele and his committee for their special work on this project. Just a note... have you paid your share in making Albany a Christmas City?

COUNCIL HAS NEW PLAN FOR CITY DUMP

The Albany City Council has come up with a new plan for developing the city dump. Actually it is an adaptation of previously discussed plans, but is being seriously considered as one that can be handled without placing too great a burden on the budget. It would be a starting move toward a plan that would serve the city for a long time to come.

As outlined the plan calls for the installation of a row of piling some distance out from the dump shoreline. The piles would be bonded together like a fence, with lagging or boards joining the piles like a fence to keep debris from floating out into the open bay.

The seaward end of the enclosure would extend probably 200 or more feet to start with and, as required, could be built on out a little at a time as funds became available. The plan would answer several of the major requirements. First, it would provide dump space in the shortest possible time. Second, the expense would be nominal compared with other proposals that have been discussed. And third, as the space was extended from time to time, it would eventually permit the development of the city tideland property which has always been in the back of the minds of members of the council, by opening up an access road to the tidelands which it is desired to fill with a view to eventual industrial development.

At Monday night's regular meeting Mayor Howell explained that council members had discussed the possibility of dredging and filling the area immediately in a conference with a bay area firm. The plan sounded fine, but the estimated cost proved prohibitive, and the time element would prevent the re-opening of the dump for a long time to come. After some discussion the council approved a motion by Councilman Jerome Blank that the city engineer be instructed to prepare an estimate of the cost of installing 200 feet of piling, with lagging, and with the installation of a log boom at each end. A report is expected at next Monday's meeting.

In other matters the council agreed to hold over until next week the appointment of members of the newly authorized "Park and Recreation Commission."

The following recommendations of Chief of Police Jensen were approved unanimously: The appointment of Stanley Parker as a probationary patrolman-clerk; the appointment of Vernon H. Freeman, now a sergeant, as Acting Inspector, to take the place of Inspector Jerry Neuhauer, retired; the appointment of Officer Glenn Thompson as Acting Sergeant, to take Freeman's place. Also the recommendation of Chief Jensen that one parking space on Adams Street, north of Clay, be changed to a red zone to facilitate traffic at that narrow intersection and, by Resolution No. 59-6 the appointment of Myron K. Jose as Patrolman in the Police Department.

Discussion of the report of the Chief of Police on a survey recently conducted on one-hour parking zones 100 feet north and south of Solano Avenue, was held over one week for study.

An insurance claim connected with a reported collision of a city "steam roller" with a private car, was denied, and referred to the city's insurance company, on advice of the city attorney.

1,497 Take Part In Sixth Annual Albany Basketball Clinic

The sixth annual Albany basketball clinic held from December 22 through January 3 at the High School for students from the fifth grade through the 12th as well as for interested high school graduates, proved very successful, according to Superintendent of Schools Kenneth M. Fory. A total of 1,497 attended this clinic under instructors Craigie Ortlieb and Charles Clark and four recreation directors as assistants.

The attendance records show that the clinic drew students from San Pablo to Oakland.

The primary function of the clinic was to teach the fundamentals of basketball to the students who in turn had opportunities to apply these skills under actual game conditions. Every student who attended was given an opportunity to play.

The value of the clinic to the Albany Unified School District, according to Fory, is that it is the beginning of an on-going program of instruction in a sport. Those enrolled gained from this clinic the fundamentals of a sport, learned to apply these skills, learned fair play, competitive spirit, and the ability to play together as a team.

Camp Fire Girls Change Area Name To 'Codornices'

It was recently announced that the Berkeley Council of Camp Fire Girls will hereafter be known as the Codornices Council of Camp Fire Girls. The new name was selected by a committee consisting of Miss Norma Way and Mesdames Francis Jones, David Kinkead and Glenn Finney. Mrs. Charles Carver, president of the council, and Mrs. Edwin Laplace, executive-director, were ex-officio members of the committee.

As the Codornices Council includes Albany, Kensington, and parts of El Cerrito, as well as Berkeley, the need for a new name has been felt for a long time. The name Codornices was selected from suggestions submitted by members of the council. Locally, the name is very meaningful for Camp Fire Girls and Blue Birds, as Codornices Park has been their day camp site for many years.

The park derived its name from the creek running through it, which was named by Jose Domingo Peralta in 1818. History has it that two Peralta brothers camped by the creek, found a quail's nest and ate the eggs. They dubbed the creek Codorniz, which is Spanish for quail.

Registration Of Aliens Required Before February 1

Bruce O. Barber, District Director of the Immigration and Naturalization Service, said today aliens in Northern California and Nevada have only two more weeks in which to comply with the Federal law requiring that aliens report their address to the Government during January of each year.

The Immigration official urged all aliens who have not yet complied to go as soon as possible to the nearest post office or Immigration Service office to file the report.

Parents or guardians must file the report for alien children under 14 years of age, or those incompetent, or under custodial care.

Mr. Barber said the address report is required each year from

CHRISTIAN SCIENCE

The apostle John's inspiring account of the raising of Lazarus by Christ Jesus is featured in the Lesson - Sermon entitled "Life" which will be heard at Christian Science services Sunday.

Selections to be read from "Science and Health with Key to the Scriptures" by Mary Baker Eddy will include the following (75:13): "Jesus restored Lazarus by the understanding that Lazarus had never died, not by an admission that his body had died and then lived again. Had Jesus believed that Lazarus had lived or died in his body, the Master would have stood on the same plane of belief as those who buried the body, and he could not have resuscitated it."

The Golden Text is from Psalms (118:14, 17): "The Lord is my strength and song, and is become my salvation . . . I shall

Give them a Faith to live by

Worship with them this week

Naturally you want them to have all the good things in life . . . a happy home . . . a good education . . . plenty of chances to meet other nice young people. But be sure to give them the most precious gift of all . . . Faith.

The wonderful part is that faith is yours to give . . . no matter who you are, what you do for a living, how much money you have in the bank.

Faith is the gift you give a little at a time. Every week you worship with the children at your church or synagogue. The youngsters see you . . . the biggest, smartest, most important people in their world . . . asking God for help, thanking Him for blessings. Then it's clear to them . . . here they can always find the strength they need, always find the happiness they want.

Then you've done the best a parent—any parent—can do.

WHAT'S DOING

Clock stopped? Every day, thousands of folks here in the Pacific West get the correct time from us. In many places, they just dial a number. This connects them with a machine which automatically gives the correct time. In other areas, local operators are always ready to give you the time. Of course, you may not need to use this service every day — but it's nice to know the correct time is as near as your phone. And this service is just one of the many useful "extras" that adds value to your telephone.

Congratulations for Local Telephone Men

New ideas and developments in the Bell System come from various sources. Many originate in our Bell Laboratories, others come from telephone people on the job.

Here are two local telephone men, Mike Sturtevant and John Smits, being congratulated by District Plant Manager, E. F. Wagner. Mike and John developed a new circuit arrangement to increase efficiency in present dial telephone offices. Their invention has been accepted by the Bell System for application in other offices across the nation. Both men are employed in the local telephone office and live with their families in our area.

SAFE WALKING TIPS

MALES, BEWARE

If you are a man, watch out when you cross the street. Three out of four adults killed in pedestrian traffic accidents last year were males, the American Automobile Association reports.

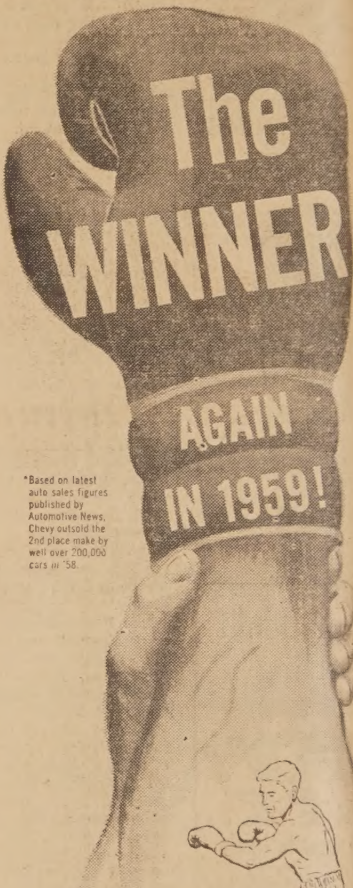

Men are naturally more aggressive, and, as a result, take greater risks. They also tend to have less patience with such things as waiting for the traffic light to change, walking to the corner to cross the street.

Two other factors are the greater number of men on streets at night, the worst time for pedestrian accidents, and the fact that women's light stockings reflect headlights better than men's dark trousers.

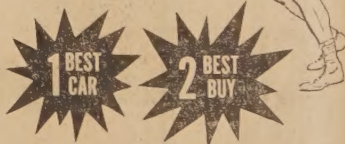

Whatever the reasons, it is high time men took stock of their walking habits. Whatever other ways they may be superior, they take second place to the ladies as safe pedestrians.

One-Stick Magic With Whipped Margarine

A special whipping process gives this margarine a light, delectable flavor . . . a light, fluffy texture. That's why it's so satisfactory both as a table spread and as a shortening in your cooking. Measuring is wonderfully easy. Exactly one stick makes delicious cookies, breads, meat spreads, frostings and cakes. Why not try these Confetti Cupcakes with Fluffy Frosting.

Confetti Cupcakes

1 stick whipped margarine 2 teaspoons baking powder
1 cup sugar 1/4 teaspoon salt
1 egg 1/4 cup milk
1 teaspoon vanilla gumdrops

Cream margarine and sugar. Add egg and vanilla; beat well. Sift together flour, baking powder and salt; add alternately with milk, mixing well after each addition. Fill paper lined cupcake pans 3/4 full. Bake in a moderate oven, 375°, for 20 to 25 minutes. Frost with Fluffy Frosting and decorate with gumdrops. Yield: 18 medium cupcakes.

Fluffy Frosting

1 stick whipped margarine 3 cups sifted confectioners' sugar
1 teaspoon vanilla 1/4 cup cream

Cream margarine; blend in salt and vanilla. Add sugar alternately with cream, beating until light and fluffy.
